

Missouri University of Science and Technology
Fall Semester 2014
Chemistry Department Seminar Schedule

All seminars are held on Mondays at 4:30 p.m. in 126 Schrenk Hall

Monday, Jan. 27

General Laboratory Safety Training
Phyllis Lewis, Environmental Specialist
Environmental Health and Safety
Missouri University of Science and Technology

Monday, Feb. 3

General Laboratory Safety Training
Phyllis Lewis, Environmental Specialist
Environmental Health and Safety
Missouri University of Science and Technology

Monday, Feb. 10

N-acetylcysteine Amide, a Thiol Antioxidant that Prevents Bleomycin-induced Toxicity
Maria Fan
Department of Chemistry
Missouri University of Science and Technology

Monday, Feb. 17

Electrokinetic and Rheological Study of CUPs
Ameya Natu
Department of Chemistry
Missouri University of Science and Technology

Monday, Feb. 24

Mechanism Study of Zinc Oxide Nanoparticles Cytotoxicity
Qingbo Yang
Department of Chemistry
Missouri University of Science and Technology

Monday, Mar. 3

Synthesis, Characterization, and Application of Hydroxyl Acid Capped Oligopeptides as a Selective Substrate in a Trypsin Inhibitor Assay
Jinyu Du
Department of Chemistry
Missouri University of Science and Technology

Monday, Mar. 10

Applications of Solid State NMR
Prof. Dewey Barich
Department of Chemistry

University of Kansas

Monday, Mar. 31

Aerogels as Diverse Nanomaterials

Abhishek Bang

Missouri University of Science and Technology
