

Chemical Kinetics CHEM 3430-101

COVID-19 Related Addendum to Syllabus (updated 8/19/20)

The following changes will be implemented in course syllabus due to ongoing COVID-19 pandemic:

- To comply with physical distancing and safe room occupation regulations related to COVID-19 pandemic, the class will be taught in online synchronous mode using zoom.
- There will be online LEAD session that covers the instructor requirements for office hours. Date and time of the LEAD session is to be determined by the students' online votes usually during the first week of classes.
- Any individual meetings with the instructor should be scheduled in advance via e-mail and will be decided in each case to be either online or in person.
- E-mail communication policy: all class-related e-mail exchange should be done via standard e-mail menu in Canvas. Students enrolled in class should expect response to their e-mails sent via Canvas within 2 business days.
