

Missouri S&T Department of Chemistry

Spring 2020 Colloquium Schedule

Fridays at 3:15 pm in Schrenk 126
Coordinator: Dr. Garry Grubbs II

Date	Speaker & Topic	Host
Feb. 7	Guido Verbeck, IV, Prof. of Chemistry and Biochemistry, Univ. of North Texas <i>Title to be announced</i>	Dr. Grubbs
Feb. 21	Jérôme Claverie, Professor and Chair of Chimie, Univ. de Sherbrooke <i>Green Chemistry to the Rescue of Materials Synthesis</i>	Dr. Glaser
March 6	Bruce Parkinson, J. E. Warren Professor of Energy and Environment (Chemistry & Energy Resources), Univ. of Wyoming <i>Title to be announced</i>	Drs. Nath/Choudhury/ Switzer/Stavropo ulos
March 20	Michael Naguib, Asst. Prof. of Physics and Engineering Physics, Tulane University <i>Two-dimensional Transition Metal Carbides and Carbonitrides for Electrochemical Energy Storage and Conversion</i>	Dr. Mochalin
April 3	Robert McMahon, Prof. of Chemistry, Univ. of Wisconsin- Madison <i>Title to be announced</i>	Dr. Sotiriou- Leventis/Grubbs
April 17 <i>Student Selected Speaker</i>	Hatsuo Ishida, Distinguished Research Professor of Macromolecular Science and Engineering, Case Western Univ. <i>Polybenzoxazines: Fundamentals and Applications for Molecular Design of Extreme Performance Polymers</i>	Dr. Schuman/ Student Hosts
